Our Closure World - great closure and design ideas

No matter how complex your business questions, we have the capabilities and experience to deliver the answers you need to move forward. We work closely with our customers in the development of their products and their brands, and collaborate with many of them to provide premium look and unique design combined with functionality and convenience.

## SPIRITS

Our caps aesthetically protect your package and delight consumers, offering an elegant, yet easy to open and reseal solution for spirits and other related beverages.

## HCC

(Herti Composite Closures)

Herti composite closures are designed to provide safety and elegance to the bottle. It is a highly successful combination of an aluminum body with a plastic insert and allows unique decoration solutions.

- GPI
- Dorado

## HXLC

(Herti Extra Long Closures)

Herti Extra Long Closures are punched and drawn in 3 steps, designed for bottling wines and spirits. They offer different possibilities for decoration and hot foil printing.

- 25x43 mm
- 28x50 mm
- 30x50 mm
- 30x55 mm
- 30x60 mm
- 31.5x55 mm
- 31.5x60 mm
- 31.5x50 mm

SIZES

## HDDC

(Herti Deep-Drawn Closures)

The deep-drawn closures are punched and drawn from the aluminum sheets in 2 steps. These caps allow additional decoration, such as side printing and embossing.

- 18x22 mm
- 22x30 mm
- 25x33 mm
- 28x38 mm
- 28x35 mm
- 28x44 mm
- 30x35 mm
- 30x44 mm
- 30x46 mm
- 30x47 mm
- 31.5x40 mm
- 31.5x44 mm
- 31.5x47 mm
- 36x52 mm

SIZES

## HSC

(Herti Standard Closures)

The standard closures (also known as short or small closures), where the diameter is bigger than the height, are the most widely spread type due to their relatively low prices, cost-effective transportation and usually shorter lead time. These caps find world-wide application in various beverage industries.

- 17x12 mm
- 18x12 mm
- 20x12 mm
- 22x15 mm
- 25x17 mm
- 28x15,4 mm
- 28x18 (18.3) mm
- 28x17 mm
- 28x22 mm
- 30x24 mm
- 31,5x18 mm
- 31,5x24 mm
- 43x24 mm

SIZES

## WINE INDUSTRY

Herti's screw caps for wine guarantee the absence of 2,4,6-trichloroanisole (TCA), the main cause of cork taint. They prevent the wine from oxidizing too swiftly and allow the wine aroma to emerge only when it comes into contact with the air. These benefits contribute to the wine's overall quality and aging potential.

All types of aluminum closures that Herti produces with SARANEX or TIN liners, can be used for wine bottling.

## HWDC

(Herti Wine Designed Closures)

Aluminum closures represent the modern way of closing bottles and play a major part in preserving the quality of the wine, its branding and visual impact, but also wine's environmental footprint. Herti offers a number of decoration possibilities and liners, and is continually investing in innovative products that satisfy the requirements of wine producers. "Vinstar" is the trade mark under which Herti sales its wine designed aluminum closures.

The most popular standard closures that we offer for the wine industry are with the following dimensions:

- 22x15
- 25x43
- 30x60
- 22x30
- 28x44
- 25x17
- 30x24

SIZES

## DORADO

The aluminum closure with safety plastic ring is designed for capping high and middle class quality still and sparkling mineral waters in glass bottles. The compound used is PVDC free which makes DORADO also suitable for ozone and sensitive waters. The closure is tamper evident due to the plastic ring, which at the same time protects consumers from injuries.

## WATER, SOFT DRINKS, JUICES

Herti's tamper-evident aluminum and plastic caps for waters, juices and still or sparkling soft drinks allow the consumer to see, hear and feel the tamper-evident ring separation, providing maximum assurance of the integrity, authenticity and quality of the product.

For the industry Herti offers the standard 28x15.4 aluminum closure and various types of plastic caps (HPP -Herti Plastic Products) also in combination with handles. Plastic caps and articles are also used in pharmaceutical and cosmetic production.

## OLIVE OILS

In the oil and olive oil sector, Herti provides a diversified range of caps, both short and long, with pourers that have been specifically designed for the viscosity of the oil, with a view to enable perfect pouring, as well as anti-drip devices to avoid the drips that could form when pouring is interrupted.

- 31.5x24 mm
- 31.5x60 mm
- 31.5x44 mm
